

Suggested High School 30-Day Intensive Schedule for Cohort I, Grade 9 Students Who Attend Schools Requiring Competency Testing in Multiple Disciplines in Grade 10

Modified 4/4 Semester Block Schedule for 9th Grade (8 courses)

	Semester 1			Semester 2*
	30 Days	30 Days	30 Days	Potential Re-entry to Modified 4/4 Semester Schedule
Block I	English Elective (Reading)	Power English	Power Algebra	English 9
Block II				Algebra I
Lunch				
Block III	** Course 4--Elective			**Course 8--Elective
Block IV	Continuation of English Elective	Continuation of Power English	Continuation of Power Algebra	Social Studies One or Career/Technology Elective

* Could also follow the Semester I scheduling format.

** Could follow an alternate (Day 1/Day 2) format, if the elective courses, such as band and newspaper, need to run for the entire school year.

Note: With a few variations, this scheduling format has possibilities for students who have failed one or two core classes in Grade 8. They could repeat the failed Grade 8 subjects during Semester I; if successful in those classes, they could complete at least five Grade 9 credits, which for some students could “put them back on track” for possible graduation with their class.
